## SUPPLEMENTAL INFORMATION DISCLOSURE STATEMEN

Sir:

In order to comply with discretionary regulations 37 CFR §§ 1.97 and 1.98, attached hereto is Form PTO-1449, and a copy<sup>1</sup> of the document listed thereon.

The document is a press release issued by AutoImmune Inc., the assignee of the present application, on May 12, 1997 stating "AutoImmune Inc. today announced preliminary results from two Phase II trials of Colloral® for rheumatoid arthritis. Both trials

<sup>&</sup>lt;sup>1</sup>To the extent that a document is listed and no copy of same is attached, then such document is not at the present time available to the undersigned or is available in the file of a parent application. If a listed document is not in the English language and an English translation is readily available, such translation is also attached; if translation is not attached it is not readily available to the undersigned. If a foreign language patent document is cited, and an English language equivalent is known to the undersigned, then such equivalent patent is also cited on the attached form along with the corresponding foreign language patent and a connecting arrow indicated therebetween; if no such English language equivalent is cited, then none is known to the undersigned.

In re Appln. of: Howard L. WEINER et al.

Serial No.: 08/279,275

demonstrated positive trends for Colloral, although statistical significance was not

demonstrated versus placebo." "Colloral" is type II collagen. These results are consistent

with the broad applicability of the present invention in treating T-cell mediated autoimmune

disease.

This Information Disclosure Statement should be considered by the Office

under 37 CFR § 1.97(c). A petition under 37 CFR § 1.97(d)(2) and a certification under 37

CFR § 1.97(e) accompany this paper.

The present Disclosure Statement is being submitted in compliance with 37

CFR 1.56 insofar as an Examiner might consider any of the cited documents important in

deciding whether to allow the application to issue as a patent, but the citation of each

document is not to be construed as an admission that such document is necessarily relevant

or prior art. No representation is intended that the cited documents represent the results of a

complete search, and it is anticipated that the Examiner, in the normal course of

examination, will make an independent search and will determine the best prior art consistent

with 37 CFR 1.104(a) and 1.106(b) and, in the course of each search, will review for

relevance every document cited on the attached form even if not initialed.

Respectfully submitted,
